SPECS

A reliable 4-in-1 MFP with duplex printing, copying, scanning and high-speed faxing, the Lexmark X464de unites all your essential document functions into one efficient device. Achieve output speeds up to 40 ppm. And streamline tasks by scanning documents straight to multiple destinations, including flash drive, email and network folder.

Ready to go to work!

Right out of the box, your Lexmark X464de will power through your workload at exceptionally fast speeds, whether you're scanning or faxing documents, copying spreadsheets or printing important presentations.

Achieve high-quality printing and copying at up to 40 ppm

Get the first printed page in your hands as fast as just 6.5 seconds

Boost productivity with two-sided printing, scanning, copying and faxing

Expand your possibilities with additional paper input options, memory, an 80GB hard disk and wireless connectivity

Intelligent and efficient

Small in size but big on talent, these devices offer the ultimate combination of built-in features and flexibility to let you breeze through office work more quickly, efficiently and intelligently than ever before.

Customize the touch screen to match your workgroup's specific needs

Add tailored workflow solutions through the Lexmark Embedded Solutions Framework (requires hard disk and at least 256MB RAM)

Scan directly to multiple destinations, including email, flash drive, network folder† and others

Protect your data, your documents and your device with advanced security features, like functional access control

† Minimum of 256MB RAM required to scan to network folder

As easy as it gets

Lexmark MFPs are a breeze to set up, install and operate. And they keep you close to the business tools you need to get the job done. No more lost time running between multiple devices. Productivity is now just a touch away!

The intuitive color touch screen gives you one-touch access to all functions

MyMFP lets each member of your workgroup save and retrieve their own touch-screen settings on a flash drive

Easily copy, fax or scan two-sided and multiple-page documents easily by loading up to 50 sheets in the automatic document feeder

LED indicators help you line up your originals so you can scan them accurately and effortlessly

Eco responsible

Consolidating all your document functions into one efficient network device can save money on hardware, energy and supplies. Lexmark takes eco-accountability further to help you print responsibly throughout your workday.

Automatic duplex printing saves paper and valuable archiving space

Extra-high-yield toner cartridges (up to 15,000* pages) help reduce the total number of cartridges used

Eco-Mode and Quiet Mode help you save energy and reduce noise

The instant warm-up fuser reduces power consumption

Recycle used cartridges easily and free of charge with the Lexmark Cartridge Collection Program

Simple duplex scanning

Load your stack of originals – up to 50 sheets – and let the automatic document feeder do the work for you.

Multipurpose feeder

Print on diverse media types, like envelopes, labels and card stock without removing your paper from the main tray.

Optional extra input

Optional extra input

Boost your total input capacity by adding a second drawer (up to 250 or 550 sheets).

LED indicator lights

Illuminated guides show you where to place your originals, for perfect scans every time.

Front USB port

Scan directly to a flash drive or use a flash drive to store and retrieve your personal MFP settings with the MyMFP feature.

Direct USB printing

Just walk up, insert a flash drive, select a PDF, XPS or image file and start printing.

Wireless capability

Break free from network cables with the Wi-Fi CERTIFIED 802.11n option

Enhanced scan resolution

Get remarkable scan quality with up to 600 x 600 dpi resolution.

The Productivity Checklist

If you've got all these, then you've got a Lexmark!

Cutting-edge security

From network security to user- and function-access restrictions, Lexmark offers you a wide range of features to help protect your valuable data and ensure network security. In addition to IPSec, SNMPv3 and 802.11x network security, the Lexmark X464de offers an alphanumeric pad for easy PIN authentication, plus encryption and disk wiping to secure your optional hard disk.

Personalized user settings

A real efficiency booster, Lexmark's MyMFP feature lets multiple users save and re-access their personal settings on a simple flash drive, including their local address book, individual copy settings, and even their own touch-screen configuration. They simply walk up to the MFP, slide in their flash drive and the MFP literally transforms into their own personal device.

Effortless manageability

These devices are network-ready and very easy to set up. If you have multiple Lexmark devices installed, the Lexmark Universal Driver offers even easier deployment. Once up and running, on-screen custom messaging makes life simpler by providing users with clear information, like intuitive show-me messaging. What's more, Lexmark MarkVision Professional software provides simplified remote management and automated tools to keep your workday flowing!

Intelligent Job Waiting

One person's setback should not mean a bottleneck for the whole workgroup! Say someone launches a print job that requires labels, but no labels are loaded. Why lose precious uptime? Lexmark's Job Waiting feature will simply hold that job aside while everyone else goes on working without interruption (hard disk required).

Efficient traffic shaping

When you e-mail a large file from your Lexmark X464de, it won't cause a traffic jam on your network. That's because traffic-shaping technology can partition your network traffic and designate lower bandwidth for outbound flows. This is useful for busy networks and externally hosted Web servers, in addition to wide area networks.

Lexmark's Embedded Solutions Framework

Experience more productivity than you could ever imagine! Lexmark's new multifunction devices come solutions-ready. That means they can be customized easily to meet your unique printing needs. Contact your Lexmark representative to find out how simple it is to tailor your MFP with one or more of Lexmark's leading industry solutions. With the touch of an icon you can transform your hardcopy documents into digital workflow, helping you print less, save time, lower costs, and reduce the environmental impact of printing. (Lexmark Embedded Solutions Framework on the Lexmark X463de and Lexmark X464de requires the hard disk and 256MB memory options.)

Now showing on the big screen

The incredibly large, fully featured color touch screen gives you fast, easy access to document capture and workflow functions. Tailor it to your business requirements with the icons and shortcuts you need most. You can even change the background image to whatever suits you best.

Peace-of-mind service

Lexmark X460 Series MFPs come standard with Lexmark's solid guarantee of 1-Year Onsite Service, which provides you with next-business-day response. You can also extend your guarantee further with a customized offering to match your specific needs. This can cover everything from guarantee extensions (up to a total of five years) to installation, training and much more.

Cost saving and environmental features

Energy Star compliant

Duplex printing, multi-up and support of recycled paper help reduce paper consumption

Eco-Mode reduces power consumption and Quiet Mode reduces noise emission

Extra High Yield Print Cartridges and Lexmark Cartridge Collection Program help reduce landfill

Instant-warm-up fuser reduces power consumption
