High-speed colour multifunction, now in A3+ format!

- Versatile A3+ colour laser
- Up to 29 ppm for colour and mono
- Standard PIN security access
- Colour multifunction at high mono speed
- Easy-to-use touch-screen interface
- Fast time to first page
- All included: print, copy, fax, scan and e-mail

Add some colour to your performance

Fast, rugged and reliable, the Lexmark X912e MFP integrates easily into your network to give you powerful, adaptable and instant multifunction performance. It makes achieving superior colour easier than ever. With innovative single-pass technology, you'll get ultra-fast 29 ppm output whether you're printing in colour or mono. And you'll benefit from easy touch-screen access to all the functions you rely on—print, copy, fax, scan and email. It's all within the touch of a button!

Intelligent management of running costs

The X912e MFP offers you more ways than ever to control costs and protect your investment. You can grant users security access codes to monitor output usage and achieve effective load balancing throughout your enterprise. With the MarkVision Professional tool you can monitor and control the MFP to align with your company strategy on cost, support and management. You'll also save time and money on supplies reordering thanks to high-yield toner cartridges for all your various office functions.

Advantages no copier can copy

The X912e MFP goes far beyond where copiers finish. At 2400 IQ, your copies look as good as the originals. By consolidating multiple devices, you'll gain valuable floor space and streamline business processes. The Lexmark's Document Solution Suite helps you automate a full range of electronic and hardcopy document tasks. And you can take advantage of a usage-based service contract that covers everything from installation and training to asset management reporting. So you only pay what you print!

Supported by Lexmark award winning technology, innovative business applications and strong strategic service offerings, Lexmark's highly skilled, specialised account team can assist your organisation to print smarter, move critical information faster and manage your output related costs more efficiently. This value proposition, Print-Move-Manage, translates into a set of industry-specific solutions and expertise allowing you to improve, maintain and manage your document and printing infrastructure.

PRINT: A full range of advanced printing solutions based on industry leading technology and associated product services that provide leading edge functions at a very competitive cost. These include printers, multifunction devices as well as network and application-specific hardware and software solutions

MOVE: Consulting and implementation services designed to increase productivity while reducing the costs related to your paper-intensive processes through device consolidation, distributed document capture, distributed printing, electronic form integration and paper document workflow automation

MANAGE: A range of services designed for today's business. Starting from the traditional leasing of equipment through per page based billing up to full contract management and outsourcing of your output device fleets. These offers are designed to deliver you the most cost effective solution for output and document management.
