

17" thin client LCD monitor

- innovative power saving
- Magic Rotation
- MagicTune
- mountable design

Server- based computing is the future of network computing. The SM730XT rides the crest of the wave with its ultra secure enhanced security features and ultra efficient reduced total cost of ownership. With dedicated thin client capability it is not only an exceptional monitor, it is also a remote graphical desktop you can trust.

innovative power saving

DPMS (Digital Power Management System) + Mechanical power off switch adopted. In DPMS mode, the monitor uses less than 1W in stand-by mode.

Magic Rotation

MagicRotation provides the user with a rotation feature (0, 90 degree) that facilitates the optimum utilisation of computer display screen.

MagicTune

Control every OSD with a mouse. MagicTune software provides convenient software OSD interface. Enhanced OSD GUI improves the interaction with user and understanding of functions.

mountable design

Wall and Arm Mount Design VESA wall-mount compatible design providing maximum functionality and flexibility. Designed to meet VESA standards to accommodate any environment whether on a desk, on the wall or in any position using an arm mount.
