- mountable design
- MagicTune
- innovative power saving
- MagicRotation

Server-based computing is the future of network computing. The SM911LT rides the crest of the wave with its ultra secure enhanced security features and ultra efficient reduced total cost of ownership. With dedicated thin client capability it is not only an exceptional monitor, it is also a remote graphical desktop you can trust.

mountable design

Wall and Arm Mount Design
 VESA wall-mount compatible design providing maximum functionality and flexibility. Designed to meet VESA standards to accommodate any environment whether on desk, on the wall or to any position with arm mount.

MagicTune

Control every OSD with mouse
 MagicTune S/W provides convenient software OSD interface. Enhanced OSD GUI improves interaction with user and understanding of functions.

innovative power saving

DPMS (Digital Power Management System) intelligently monitors the conditions of the display use and uses less than 1W in stand-by mode. The SM911LT economically and ecologically friendly.

MagicRotation

MagicRotation provides the user with a rotation feature (0,90 degrees) that facilitates the optimum utilisation of the computer display screen.
