Server-based computing is the future of network computing. The SM930XT rides the crest of the wave with its ultra secure enhanced security features and ultra efficient reduced total cost of ownership. With dedicated thin client capability it is not only an exceptional monitor, it is also a remote graphical desktop you can trust.

extreme quality

Enhanced brightness LCD panel and 1000:1 contrast ratio determines excellence in the final colour expressions and lifelike images.

mountable design

Wall and Arm Mount Design
- VESA wall-mount compatible design providing maximum functionality and flexibility.
Designed to meet VESA standards to accommodate any environment whether on a desk, on the wall or in any position using an arm mount.

MagicTune

Control each OSD with a mouse. MagicTune software provides a convenient software OSD interface. Enhanced OSD GUI improves interaction with the user and understanding of functions.
